

# GOOD NEIGHBOURLY RELATIONS COMMITTEE

Major work to reinforce the metal structure  
of the Jacques Cartier Bridge

March 6, 2017

Dear Neighbour,

The Jacques Cartier and Champlain Bridges Incorporated (JCCBI) is currently working to reinforce the metal structure of the Jacques Cartier Bridge in order to extend the service life of this Montreal icon.

As we are aware of the impact that this work has on residents and merchants near the bridge, JCCBI will hold the next good neighbourly relations committee, on Tuesday, March 28.

This meeting will be held in the evening at the Centre St-Pierre and is open to all residents and business owners in the sector. Representatives from JCCBI, the WSC monitoring team, the Ville-Marie borough and the local police station, will attend the meeting.

The Good Neighbourly Relations Committee holds a meeting about once every two months to provide updates on the work, inform you of the next work phases, and discuss issues and possible solutions. At this next meeting, JCCBI will present the preliminary development plans for the lands under the Jacques-Cartier Bridge.
